Theme of the Symposium

Cancer is the second leading cause of the death worldwide and socio economic burden in the society. In recent past significant advances in cancer research and clinical developments have been made in cancer research, but still it is challenging. The aim of the symposium is to bring together scientists, clinicians and students to discuss leading edge of research, share their knowledge and promote basic, translational and clinical research in cancer biology. The symposium will provide a common platform for exchange of new knowledge, ideas and it helps to conduct collaborative research to battle with cancer.

We are delighted to announce the “National Symposium on Basic, Translational & Clinical Research in Cancer Biology” **11-12 SEPTEMBER 2019** at Department of Biological Sciences & Biotechnology, Institute of Advanced Research, Koba Institutional Area, Gandhinagar, Gujarat, India.
